ACTIVE MEMBERSHIP DROPPING

Age, death, health, and other factors are reducing our membership. We must maintain a mailing list of 200 in order to take advantage of bulk mail rates. I am having to supplement each mailing with about 20 additional free copies each issue. So far, I am mailing those issues to LDS Family History centers whose street address are verifiable with USPS. **Your help in interesting and enrolling your T*R*L relatives is badly needed. That is the purpose of the yellow cards. DFB**

**INVITATION TO THE
TERRELL-PITTMAN-HARRIS-EVANS-
REEVES-VESSLES
REUNION 2006**

Fri. through Sun., June 9, 10, & 11, 2006 in the old Grammar School, Rockford, Coosa County, Alabama

Mr. **Dennis Camp** and I extend a cordial invitation to all TERRELL descendants (regardless of spelling) including members of the TERRELL SOCIETY OF AMERICA, Inc. and potential members; to ALL descendants of: **James Alfred PITTMAN & Letty EVANS** and for ALL descendants of **Pickens Earle HARRIS & Drucilla SIMMONS**.

Motel accommodations are available in (Beginning with closest): **Alexander City, AL; Sylacauga, AL; Opelika, AL; Auburn, AL; Montgomery, AL; Birmingham, AL & Columbus GA** which are all within reasonable driving time.

For those who plan to fly in, the most economical fares will be to Atlanta, GA. Rental car from there will probably be less than a shuttle flight to a nearer location.

Motor home and camping sites are available in **Wynn Creek State Park** near Alexander City, AL. Wynn Creek (part of the Alabama State Park System) also has swimming, picnicking, hiking, and other activities if you can stay long enough to enjoy them.

At present, I am considering staying in this park the week before and part of the week after the reunion.

In order to make this reunion large enough to be worth the effort, I am expanding it to include: all descendants of **John TERREL**, who d. Henry Co. GA 1828-29. His children listed in last issue.

All descendants of **John EVANS** who d. Tallapoosa Co. AL ca1846 and his wife **Luvenia REEVES** (parents of Letty EVANS Pittman, wife of James Alfred PITTMAN);

An open invitation is also extended to all members of the **Coosa County Historical Society & The Rockford Council of Arts & Crafts**. The latter maintains the building that I have reserved.

AOL? -- BEST REASON NOT TO USE IT

Editor's Note: If you have AOL as your internet service provider, you are no longer in either my email address book or the list of TERRELL SOCIETY MEMBER email addresses.

The following copy of a message sent recently to both AOL and my local service provider contains full details of my reason for doing so along with AOL's explanation for the reason my emails were not delivered to the intended recipients.

If you wish to continue to use AOL and communicate with me via email; it will be necessary for you express your dissatisfaction to AOL and convince them to allow you to receive emails intended for you.

While we are on the subject of email nuisances, I have received emails from some and responded to their request only to be bombarded with a SPAM-BLOCKER email demanding that I send a short message to the recipient then read a cryptic set of numbers and/or letters in order to have my name added to the "recipient's list of approved correspondents."

I have neither the time nor the patience for that one. I will do it once, but no more for the same recipient. If you tried to communicate with me; have an automatic "spam blocker" message system; and never heard from me, now you know the probable reason.

Since I have a cable connection, all mail from the TERRELL SOCIETY is sent for the address:

pawpaw@syrupcity.net

Therefore, that is the email address you will need if you use a SPAM BLOCKER that restricts incoming messages.

The following is For Your Information, and I hope, enlightenment. *DFB*

Error 554 HVU:B1

Every time I try to correspond with **anyone** on AOL, I get the above error. The URL from which I email is Syrupcity.net operated by CNS. I do not believe that anyone in this small rural community is *generating substantial complaints from AOL members.*

I believe this is another marketing tactic designed to try to force everyone to use AOL. **The end result is that AOL is depriving its customers of information in response to emails and message board postings placed by the AOL customers themselves.**

HISTORY OF THE TIRRELL FAMILY OF WEYMOUTH, MASS. WITH THE RELATION TO THE MANUFACTURE OF MEN'S BOOTS AND SHOES.

Nov. 15, 1928—by **Wilson TIRRELL**

The TIRRELL family of Weymouth is one of the oldest families in Massachusetts or New England. The first known TIRRELL of this branch of the family to arrive in this country was **John TIRRELL** of Instow Parish, Devon, England; a mariner who settled in Boston. John TIRRELL had a son **Samuel** who lived and died in Instow Parish, Devon, England. **John** and **William**, sons of **Samuel** came to America with their grandfather, John, and settled in Boston. It is known that **John TIRRELL**, the grandfather had property on Cross Street in Boston.

William TIRRELL, son of **Samuel**, married **Rebecca SIMPKINS** in Boston on Jan. 29, 1654. She was the daughter of Capt. **Nicholas SIMPKINS**, the first commander of Castle Island Fort in 1634. He moved from Boston to Weymouth in 1672 and took the oath of allegiance there in 1678-9. **William TIRRELL** had four children; **Rebecca** b. Dec. 16, 1656, **William** b. Mar. 16, 1659, **Mary** b. April 6, 1661 and **Gideon** b. July 16, 1664.

William, son of **William**, married **Abigail PRATT**, daughter of Thomas Pratt of Weymouth. He moved from Weymouth to Abington in 1705 and died there.

Gideon, the youngest son of **William** and **Rebecca**, and brother of above **William**, moved to Weymouth when about twenty years old and lived with his brother. He married **Hannah---** (**SHAW?** or **KINGMAN?**). **CHAMBERLAIN** in his *History of Weymouth* calls her **Hannah KINGMAN**, and later under the name of **SHAW** states that **Hannah SHAW** married **Gideon TIRRELL**, which coincides with family tradition that **Gideon TIRRELL** married **Hannah S----**. **Gideon TIRRELL** was a carpenter.

Until recent years it was believed that the first settlement of the TIRRELL's in Massachusetts was made at Weymouth by **Gideon TIRRELL**, but recent researches have shown that the earliest settlement was made in Boston as stated above.

Gideon TIRRELL settled in the south parish of Weymouth, now know as South Weymouth, not far from Nash's Corner on Front Street, on the old rod to Weymouth Landing, near the junction of Mill Street. As mill power was available in this location, this became one of the earliest settlements in South Weymouth. There were four mill privileges at this point; **BARTLETT LOUD** Mill, **SHERMAN** Mill, **REED** Mill and a small privilege where **Amos MERRITT** and Sons made needles.

The original homestead of Gideon TIRRELL stood near the spot of the *KINGMAN TIRRELL house* at 693 Front Street, which was recently owned by **Austin TIRRELL**. The old *TIRRELL Cemetery* is in the near vicinity. The original house was burned and the *KINGMAN TIRRELL house* built near the original site. The land of the homestead lot was purchased from **Matthew PRATT** (son of Matthew) on Sept. 28, 1686, and deed was signed by **Peregrine WHITE** as witness for the *King*.

It was from this home of **Gideon TIRRELL** that practically all of the TIRRELL's of Weymouth originated and scattered to different parts of the town. The town records show that **Gideon TIRRELL** was an extensive land owner, his holdings consisting of 150 acres, more or less, running from the lower end of *Great Pond* to the *Braintree Line*.

The descendants of **Gideon TIRRELL** from 1850 to 1875 constituted—with two names excepted—the largest number of voters in the town and two thirds of whom, probably, contributed for town expenses as large an amount as the whole of those of any one name in Weymouth.

The history of the descendants of **Gideon TIRRELL** from here to 1851 is quite clear as recorded in the *Genealogy of the TIRRELL Family* written by **Benjamin TIRRELL** and published in 1851.

The manufacture of shoes began to be one of the leading industries of Weymouth about 1800 and the TIRRELL family began to be associated with this business in a large way at this time.

James TIRRELL⁷ (**Ebenezer**⁶, **Gideon**⁵, **William**³, **Samuel**², **John**¹) born March 1, 1768, married **Hannah KINGMAN** on Dec. 8, 1793. She was the daughter of **Zachariah KINGMAN** and **Elizabeth TIRRELL**. They had eight children; **Kingman** b. mar. 30, 1795, **James** b. May 8, 1797, **Betsey** b. June 28, 1799, **Minot** b. July 24, 1801, **Minot** b. Oct. 28

1805, **Wilson** b. Feb. 15, 1808, **Mary** b. Apr. 25, 1810 and **Albert** b. June 10, 1813. **James TIRRELL Sr.** died on May 27, 1815 at the age of 47 leaving his family of five sons and two daughters, the oldest eighteen and the youngest 2 years of age. His widow married **Cornet Ezra REED** in 1823 as his second wife. **Ezra REED** by his first wife had a large family, the following being his sons; **Ezra, Harvey, Quincy, John** and **Alvin**. These children and the children of **James TIRRELL** were all brought up together in one family. The **REED** boys; **Quincy, Harvey, John** and **Alvin**, are identified with the shoe industry of South Weymouth, as they did a large business in manufacturing in South Weymouth and jobbing in Boston, New Orleans and the West Indies during the years 1809-1833.

James TIRRELL Sr. built the shoe shop about 1808 which stood on Front Street on land which was part of the original *Gideon TIRRELL Homestead*, about 300 feet from his house. This shop was a small building about twenty-five feet by thirty-five feet and two stories high. About the only work done in this building was the cutting, treeing and dressing. The rest of the work was done outside in homes and small ten foot by ten-foot shops. Full description of this will be given later.

The footwear made at this time were mostly men's brogans and a few long-legged boots and slippers, cut from heavy kip skins, with the finer ones cut from calf skin.

The balmoral shoe of the present day was not known at this time.

James TIRRELL's five sons **Kingman, James, Minot, Wilson** and **Albert** were all manufacturers of shoes and large leather dealers.

Kingman TIRRELL, the oldest son went to New Orleans about 1815-1818 soon after Louisiana was ceded to the United States from France. He took a partner in New Orleans and established a wholesale jobbing house to sell shoes to the planters. These shoes were to be made in South Weymouth. He came home to South Weymouth and married **Charlotte RICHARDS** on Mar. 2, 1820 and on returning to New Orleans found that his partner had decamped with everything leaving him penniless. He therefore returned to South Weymouth and later manufactured shoes here. **Kingman TIRRELL** had several sons; **Kingman TIRRELL Jr.** who went to New Orleans

and died there of *Yellow Fever*, **Albert** and **Austin** who manufactured shoes from 1860 to 1870, and several others who were not identified with the shoe industry.

James TIRRELL Jr. made shoes for a time in the same shop that his father built on the homestead lot. The business was later moved to the center of South Weymouth. He with his brothers **Minot**, **Wilson** and **Albert** benefiting by the experience and knowledge of the business gained by **Kingman** followed up the New Orleans trade at a later date. In 1831 the firm of *James TIRRELL & Co.* consisting of the three brothers **James**, **Minot** and **Albert** was established for carrying on the shoe business. **Minot** went early to New Orleans and was followed by **Albert**, who established a successful jobbing business selling to the planters. They manufactured in the center of South Weymouth at *Independence Square (DYER'S's Corner)* where the *Odd Fellows hall* now stands. Their shop was a two and a half story building about one hundred feet long by thirty feet wide. The building has since been moved away and converted into tenements. In one end of this building was a grocery store, as was the custom of the day and workmen were paid partly in cash and party in groceries.

Later the TIRRELL brothers established a sole leather business in Boston under the name of *J & A TIRRELL* where they did an extensive business, owning several tanneries in New York State and selling their product throughout the states. This concern made some of the finest hemlock tanned leather shipped into Boston.

After the death of **James TIRRELL**, the business was continued by his sons, **James** and **Alfred** until the early 80's. Previous to this **Alfred TIRRELL** had been in the shoe business under the name of *TIRRELL and BATES*. (On side margin: **Melvin, Geo., and Breezy BATES** ??)

Minot and **Albert** were also interested in real estate, **Minot** owning much property in *Boston* and *Lynn*, and **Albert** owning much property in *Boston*. **Minot** was the President of *Weymouth National Bank* from 1857 to 1876 and previously connected with Boston Banking interests.

From 1833 to 1860 **Wilson TIRRELL**, the other younger brother also manufactured shoes in the same little shop on the homestead lot. Here he made Brogans, Balmorals and long-legged boots. About this

time an addition of about thirty-five feet was built onto the shop making it about seventy-five feet long. **Wilson** also manufactured for the New Orleans trade, as did his brothers, and established a jobbing house there in charge of his brother-in-law, **Winslow BLANCHARD**. He sold out this business about 1861-2 to **Winslow** and **Christopher BLANCHARD**, both of South Weymouth.

The footwear manufactured were high-grade boots and shoes in pegged nailed and hand sewed. The uppers were cut in the upper part of the shop and some of the fitting was done there. The lower floor was used for sole leather, treeing, and packing, and one end was used for a grocery store. A part of the fitting and all of he making was done outside in practically the same manner as was done in earlier days, no great improvements having been made in shoemaking up to 1837-1850. The uppers were sent to the neighbors and more distant homes and seams were sewed by hand with linen Thread with hog bristle ends, through holes that were punched with an awl. The work was held in a clamp to keep it in place for sewing. The tops were bound on with galloon leather binding which was stitched to the top and lining by hand. The counter was quite often stitched to the upper by hand with a waxed linen thread. When done, as formerly, these were returned to the shop and again sent out with the sole leather, innersoles, heels etc. to the shoemakers who worked in the small ten by ten foot shops. Here one, two or more worked together making the whole bottom of the shoe. The soles, inner-soles and heels were roughly cut in squares. Sometimes the whole side was given to the shoemaker. An average side of leather would make the soles, inner-soles and heels for twelve pair of shoes. At this time the sole leather stock was put up so roughly that there was a chance for an economical shoemaker to save, by pounding out the leather on a lapstone and stretching with pliers, form one to two pair of soles from the leather given for twelve pairs. These soles saved were put into their closet where they kept their cabbage stock. They appropriated these soles to themselves and sold them to traders for a good price, and sometimes the original owner even bought them back. It was considered all right for a man to keep any stock he could save from the stock given to him. These shoemakers worked on low down individual three or three and a half foot shoemakers benches with a seat,

and a place for their tools and a drawer beneath the seat to hold their stock. Their tools consisted of a lapstone to pound out, stretch and harden the leather, an awl, a hammer, a hand knife to trim the edges and heels and to skiv off the flesh side of the leather, a leather strap and stirrup to hold the shoes on their knees while pegging, nailing, hand sewing and edgemaking. Up to 1815 quite a number of the pegs were made by hand and some of the thread was ever made from home raised and homespun hemp.

The sewed shoes were all hand sewed and hand stitched and a pair of pincers was used to pull the uppers onto the lasts. The shoes were lasted with pegs instead of tacks. The innersole was tacked on with pegs and were trimmed with a hand knife. After the soles were hand pegged or hand sewed and hand stitched in place, the edges were trimmed by hand with a knife and scoured smooth with a sandstone, or in later years, with sandpaper. The edge was then finished by applying paste or gum and black ball and rubbed with a hard wood edge rub stick.

From 1800 to 1837 most of the lasts were made by hand from pine wood blocks, the shoemaker often making his own lasts. Only one last of a size was used and this last served for both the right and left foot. There were no right and left shoes, the shoes were interchangeable. There were no detachable blocks on these lasts for ease in removing the last from the shoe. The same last was used for all widths, the change in width being made by adding one or more thicknesses of leather to the top of the last. Rubber cement did not exist at this time. Flour paste or glue was the only thing available to stick parts together at this time.

After the shoemaker finished his work, the shoes were returned to the shop to be inspected by the manufacturer before paying for the work. Sometimes in case of poor work the shoemaker was fined. In the shop the shoes were then treed, by treating the leather with gum tragacanth and rubbing with a rub stick to a polish, then dressing with a coat of shellac ammonia dressing. They were then packed and were ready to be shipped to the customer.

In 1808 all shoes were shipped into Boston in saddlebags on horseback. When sent to New Orleans they were repacked in Boston in casks and hogsheads, which could be easily handled on sailing vessels. These hogsheads and casks were used later to ship

molasses back to Boston. Wooden cases did not come into use for packing shoes until 1837-50 and cartons were not used until about 1850.

The shoe manufacturers of 1837-60 went to Boston once or twice a week. They all owned good horses and went over the road stopping at *Neponset Half Way House* to rest and lunch and then proceeded to Boston. The writer has often heard his grandfather, **Wilson TIRRELL Sr.** tell of the other manufacturers of South Weymouth driving down and meeting in front of his factory. When all had arrived they would start for Boston together. They all had fast horses and the game was to see who could win the race to Neponset. Often one or another would pick up during the week a sorry looking animal that had been a fast trotter and he would clean out all of them winning the race without any effort.

During this period (1800-1850) shoemakers would not work steadily. They would leave their work for necessary farming and on other occasions when the spirit moved them to go fishing and gunning.

Wilson TIRRELL Sr. at this time (1833-60) had a grocery and general store at one end of the shop, as did his brothers and the other manufacturers of that day. Here they kept a good supply of groceries, tools, kit and other family necessities. Little money changed hands these days and most of the labor for the making of the shoes was paid for with the goods from the store. The shoe manufacturer bought his groceries and other goods at wholesale on credit and retailed it out his workmen at a good profit. The workmen had small account books and their work was credited to them and their groceries and other supplies were charged up to them. Sometimes the workmen took an order for goods on another store. There was no regular payday but the workmen took cash or goods as the required them.

During the years from 1845 to 1873 there was a great change in the system of manufacturing shoes. Machinery began to be developed. Previous to this date the method of making shoes had remained stationary, the same methods and hand tools being used as had been used for hundreds of years before. Some of the first machines to be developed were; hand powered rolling machine, foot power pegging machine, wax thread post machines for stitching uppers and counters, sewing machines for stitching uppers of finer grades shoes. The fair stitch machine for stitching the

edge of soles to imitate a hand stitch, hand skiving machines for upper and sole leather, hand edge planes and irons for making edges and last turning machines. In 1664-68 the *McKAY sewing machine* came to be used for sole sewing with a royalty of one to five cents a pair, men's shoes being five cents a pair. The nailing machine began to be used at this time as were also the eyelet and treeing machines. These machines were run by either foot or hand power.

From 1870 to 1875 work commenced to be concentrated under one roof in order to have more uniformity of style and finish.

The writer found in the attic of his grandfather, **William TIRRELL**, after his death, old bills for brogans, which he bought from **Henry WILSON** of Natick who later was Vice President of the United States of America. These brogans were sold to the New Orleans trade. The price for which **Henry Wilson** sold these shoes at this time was seventy-five to eighty-five cents per pair.

After **Wilson TIRRELL Sr.** retired from the shoe business, selling to **Winslow** and **Christopher BLANCHARD** of South Weymouth because of unsettled times in New Orleans previous to the Civil War, **Wilson TIRRELL Jr.**, born Sept. 18, 1832, began the manufacture of men's boots and shoes for the New Orleans trade. About 1856 he established a jobbing house in New Orleans and manufactured in the same old shop on the homestead lot in South Weymouth, as did his father, grandfather and uncles before him.

At this time he made a high grade pegged, nailed and hand sewed, calf boot and balmoral and congress shoe. He commenced to adopt the new hand and foot power machines, which were coming into use. When the fair stitch machine came into use to put a yellow stitch on the edge of the sole to imitate the yellow hand stitch used at the time he thought he had a good thing as he channel nailed some of the boots and shoes and then used this stitch on the edge making them look like a hand stitched shoe.

Wilson TIRRELL Jr. continued in business until about 1867. He was the last TIRRELL to manufacture shoes in the old Front Street shop. The shop was then used for various purposes until it was destroyed by fire about 1920.

The writer remembers his father and mother telling about going to New Orleans in 1857 and seeing men and women slaves sold on the block in the slave market as one would sell cattle. On account of the fear of yellow fever, northerners stayed in New Orleans only during the colder or winter months.

The **William TIRRELL Jr.** Homestead is at 991 Front Street in South Weymouth.

Wilson TIRRELL Jr. had a large family consisting of three sons and four daughters. The eldest sons, **Wilson**, the writer, and **Warren**, twins born July 20, 1858, followed in the shoe industry. The younger son, **Hamilton** is an attorney at law in Boston and South Weymouth.

Wilson and **Warren** received their early training in the shoe industry in *J. S. FOGG & Co.*, and other shops in the Weymouth district. In 1880 **Wilson** and **Warren** established a shoe business under the name of *W & W TIRRELL* making men's fine boots and shoes for the New England, Southern, Western and California trade. They also had a large New York and Philadelphia trade. The type of boot and shoe made was the *McKAY* pegged, screw nailed and hand sewed boot and shoe. They also did a good business in the California trade in long boots in screw nailed and copper nailed with a half sole and outside tap sole. *W. & W. TIRRELL* operated the first steam factory in South Weymouth that is, the first factory where all the work was done in the same building and the machinery run by steam power, making about twenty-five dozen pair of shoes a day. This factory was also the first factory in South Weymouth to use the *BUSSELL* edge trimmer and edge setter.

They continued in business until 1889 when **Warren TIRRELL** went with *C & P. H. TIRRELL*, his wife's father being **Prince H. TIRRELL**, who had been doing a large manufacturing business in South Weymouth, and also owning a large jobbing house in San Francisco. This business was established in 1850, Mr. **P. H. TIRRELL** being one of the forty-niners who went to California during the gold fever, who saw in California a good shoe market. *C. & P.H. TIRRELL* made one of the finest grades of shoes made in New England. Nothing but the best stock and labor was used, and their goods demanded the highest prices. **Warren TIRRELL** continued with this concern until the death of one of the partners in 1890. He then entered the employ of *Bouve Crawford* of Brockton in

their Warren Ave. factory as foreman of their bottoming dept. and continued there for about two years when he left them for a better position with *Howard and Foster* of Brockton, as Superintendent and buyer of their bottoming department. He was with this concern for twenty-eight years continuing in this position until the death of Mr. Howard, when he retired from active business in 1920. Howard and Foster was one of the largest factories in Brockton, making 2400 pairs of shoes per day in 1914-15.

Wilson TIRRELL, the writer, the other member of the firm of *W. & W. TIRRELL* entered the employ of *J. S. Fogg & Co.* in 1889 as Superintendent of their South Weymouth factory, where fine grade of men's Goodyear welt, hand sewed, and nailed boot and shoe was made. He continued in this position until the death of **John S. FOGG** in 1892. He then entered the employ of *Bouve Crawford* of Brockton, in their Harvard Street factory as foreman of the bottoming department. They made a hand sewed and Goodyear welt shoe for the retail trade. This concern later moved all departments to their new Montello factory.

Wilson TIRRELL continued with this concern for about six years, leaving to enter the employ of *W. L. DOUGLAS Co.* in charge of their bottoming department and making 3600 pair of shoes per day. He remained with this concern for about a year. In 1899 he entered the employ of *Lewis A. CROSSETT Inc.* of North Abington, in charge of their bottoming department. In 1903 he was made superintendent of all the North Abington factory and later general superintendent of all the North Abington and Augusta, Maine factories. He continued with this concern until the death of Mr. **CROSSETT** in 1926 when he retired from active shoe business. While he was with the Crossett Company he saw the business grow from a factory two hundred and fifty feet long, four stories high making thirty-five to sixty-five dozen pairs of shoes a day to a factory one thousand feet long and four stories high making in 1914-15, three hundred and fifty to four hundred dozen pairs per day. He had charge of three factories with two assistant superintendents and sixteen foremen of departments under his supervision. Mr. **Alvin T. REED**, a descendent of **Cornet Ezra REED**, previously referred to, was one of the assistant superintendents.

With the retirement of **Wilson** and **Warren TIRRELL**, sons of **Wilson TIRRELL Jr.**, in 1920 and

1920 respectively, the **TIRRELL** family of South Weymouth, as descended through **James TIRRELL Sr.** as a factor in the shoe industry has ended. **Wilson TIRRELL** has a son, **Robert Wilson TIRRELL**, who is a mechanical engineer, and **Warren TIRRELL** has a son, **Warren Cedric TIRRELL**, who is engaged in the mercantile business, both in Boston.

The writer wishes to impress the fact that during all of this period from 1808 to 1890 and even to the present day, Weymouth has always made the finest grade, best quality, and highest priced men's shoes in Massachusetts. Their workmen were of the highest grade and when manufacturers of the surrounding towns wanted to improve their work they sought their superintendents, foremen and workmen in Weymouth.

Other shoe concerns in Weymouth in which the **TIRRELL**'s were active were:

TIRRELL Church & Co. who did quite an extensive shoe and manufacturing business in 18780-75 at Lovell's Corner. They also did a jobbing business in Boston.

Henry Austin TIRRELL of East Weymouth did a shoe business in the square at East Weymouth during the years 1875-80.

TORREY, CURTIS & TIRRELL did a large business in North Weymouth between the years of ? & 1900.

Arthur TIRRELL was the **TIRRELL** partner in this concern.

Signed: **Wilson TIRRELL**; 270 Spring Street; Brockton, Mass.

Tariff in 1790 \$.50 per pair

1818 \$1.50 per pair

1845 \$1.25 per pair

In 1837 there was a serious panic and many failures in the shoe business.

In 1845 prices for labor were as follows:

Cutting \$1.00 to 1.35 per day

Treeing \$7.00 per week

Bottoming and Finishing per 12 pairs pegged \$5.00 & \$6.00

Hand sewed \$9.00

Fitting Brogans 3½ to 4 cents per pair

Bottoming cheap brogans 14 to 17 cents per pair

Cost of last were 20 cents per pair

There was very little steam power used in Southern Massachusetts until 1868-75. From 1875-90 it became generally used.

MEET YOUR PRINTERS

Head of Grady's oldest family--owned firm stepping down

Reprinted by permission from *The Cairo Messenger*; Sep. 28, 2005

As another month comes to a close, so does the long and noted career of a fourth generation Cairo printer and businessman.

Herbert W. Wind

Herbert W. (Billy) Wind, president of the *Messenger Publishing Company*, has announced he will retire from the day-to-day operations of the family-owned publishing company effective Friday, Sept. 30, 2005.

Wind's son, **Herbert S. (Bert) Wind**, will follow in his footsteps as the company's president.

The elder Wind is the last of the printers knowledgeable and skilled in both letter press printing and modern offset printing methods.

The retiring company president is the last member of the Wind family to have acquired the talent to operate Linotype machines, the workhorse of newspapers and commercial print shops for decades.

Speaking about his retirement Wind said, "Besides God and my family, there's nothing I have enjoyed more."

Herbert S. Wind

Herbert W. Wind began his career with his family's company as a young boy. He spent after school hours doing various tasks around the newspaper office and print shop, and even worked at the company during vacation breaks from college.

Wind is a graduate of Troy State University, Troy, Ala., and before joining the family firm full-time in 1966, he worked as a school teacher in Albany.

Starting in 1966, Wind worked side by side with his father, the late **H. H. Wind Jr.**, until his retirement in 1980, and his brother, **Robert H. Wind**, until his retirement in 2000, in operating the company which publishes the Cairo Messenger.

He and his family are active members of the Cairo First United Methodist Church, where he has served the church in a multitude of capacities including trustee.

Wind and his wife, **Mary**, are the parents of **Herbert S. Wind** of Cairo, and **Melodee Wind Loeffler**, of Bainbridge. The Winds are the proud grandparents of **Mark Wesley Loeffler**, 6, and **Catherine Piper Loeffler**, 3.

While Herbert W. Wind will no longer be involved actively in the operation of the company, he does

plan to help out when needed. As he has said on many occasions, "I love the printing business. It's like, a hobby for me.

Wind's retirement completes the transition of management and ownership into the hands of the fifth generation of the family to publish the community's hometown newspaper.

Herbert S. Wind stated, "My father will be greatly missed in the day-to-day operation of the company as we will miss both the depth amid the breadth of his knowledge and experience.

Serving along with the company's new president is Vice-President & Secretary **Randolph H. Wind**, who also serves as editor and publisher of *The Cairo Messenger*

"My uncle knows more about the printing business than anyone I know. He is someone who can fix just about anything or help come up with a solution to almost any problem. Always kind, fair and patient, he will always remain a role model in my life. He may not be here every day but, thank goodness, he'll never be more than a phone call away," said Randolph H. Wind.

The Company will host a reception in honor of **Herbert W. Wind** on Thursday, Oct. 13, between 4:30 and 6:00 p.m. at the Cairo Country Club. Friends and associates of Wind are invited to drop by during the retirement reception.

THE REST OF THE STORY

"**Billy**" Wind, his brother, **Robert H. "Bobby,"** and **I** grew up together. We attended the same schools from grade 1 through 12. My father was a guard at the county prison while their father was a county commissioner in addition to running the local newspaper and printing service.

Billy & Bert have printed **TERRELL TRAILS** since I returned to Cairo in 1989.

Billy knew that his grandmother **Stephens'** maiden name was **WILKINS**. He did not know that she was a descendant of **William WILKINS** and **Elizabeth "Betsy" TERRELL**. Details next year. *DFB*

Q. My name is **Bradford Lee LEWIS**; however, my birth certificate shows my name as **Bradford Lee TERRELL**. My natural father was **Alvin Elroy TERRELL**, but I did not know this for many years (long story!).

I am researching my TERRELL ancestry, specifically looking for connections to our Cherokee heritage.

I am going to continue looking over your very informative site, but also I thought I might provide you with descendant tree of the TERRELLs that know in case you recognize anything or are interested in collecting the information as well.

I also attaching for you a copy of my birth certificate in case you find any clues in it and/or wish to add it to your TERRELL collection.

I am forwarding this to our President, Mr. **Don C. Terrill**. He maintains a "family tree" type database on the VA descendants and he may have your Willis identified.

Regardless, we thank you for the new information that you provided and cordially invite you to join us in search of the truth. Details are on our web site. *DFB*

Q2. Thank you VERY much for taking time out from what I am sure is a busy schedule to do this research. I have a little more information which I should have included (though I don't think I really expected a response).

My records show **Willis (or Willie) TERRELL** (1864-1954) being buried in Jeddo Cemetery, Bastrop County, Texas with his wife **Barbara** (1871-1923).

Also in the same cemetery are: **Betty Jewel JONES Terrell** (04/02/1943-12/06/1963), and **Wesley Cole TERRELL** (10/08/1958-10/09/1958) [infant death] There is also a **Nancy Belle TERRELL** (10/08/1879-06/06/1903)

You can find these referenced on these sites:

<http://www.rootsweb.com/~txbastro/cemetery/jeddo.htm>

<http://ftp.rootsweb.com/pub/usgenweb/tx/caldwell/cemetery/various.txt>

<http://www.rootsweb.com/~txcaldwe/jeddo.txt>

Of these individuals, I knew **Betty Jewel**. She was my mother's sister and wife to my natural father, **Alvin Elroy TERRELL**. She gave birth to **Wesley Cole TERRELL**, who died in infancy (and would be my brother).

Re **Nancy Belle**: We surmise that she was related, as she was buried with other TERRELLs in the same cemetery.

If you can pass this information on as you did before, it will hopefully be of more relevance.

Thanks again!

Bradford Lee (TERRELL) Lewis

A2. Thanks. I'll pass this along to Don. We are a mutual assistance society. No one draws a salary. We own no buildings or property except for our collection of materials. I spend most of my time with grandchildren and lots of it out of town. I just came back from a week trip with 3 grandchildren yesterday. Regardless, both Don & I always try to help others in their search. I look forward to serving you.

DFB

A2a. Willie (William) is one of my unsolved **TERRELL** mysteries. Here is what I know:

He is in the 1900 census of Bastrop Co, Texas (Smithville, ED 12, S 12, L 51, spool 1609) with **Barbara**. He was born in Texas and she in Illinois.

He is in the 1880 census of Bastrop Co, Texas (Wards Store, P.O. Box Snake Prairie), p. 93a, spool 1290). There, he is a son in the family of **James & Frances TERRELL**.

From colateral information (Ancestry.com, *Hilton/Burditt/Merrill/Cassels and More* by jtruman@mountain.west, gathered 3 Aug 2002) he is identified as **James A. TERRELL** (b. 1840, Mo.) m. **Melinda P. CHANDLER** on 9 May 1861 at Fayette Co Texas. She was b. 8 May 1843 at Jefferson, Mo. and d. 11 Dec 1871 in Texas.

In the 1880 census James is married to **Frances** ___ (b. 1859, Va.) who is apparently his second wife. Willie is the son of Melinda. James is supposed to be in Texas from 1861, but I cannot find him in the 1870 census. Unfortunately, that is as far as I can go with this family. Don C. Terrill

ADDITIONAL INFO

Dear Don Terrill, I don't know if this will be of help, since I have no documentation to support most of it. What I have in my family tree, and my family generally accepts for lack of evidence to the contrary, is this:

Willie TERRELL and **Barbara** had a son, **Alvin Edward TERRELL**. Alvin married **Nora Daisy HARBUCK**

Alvin and Nora had four children:

Alvin Elroy TERRELL (Oct 14, 1931 - Jun 1, 1997)

Lloyd TERRELL (may still be living in Texas)

Norman TERRELL (deceased - no dates)

Lorene E. (Elizabeth?) TERRELL (Aug 3, 1937 - Jun 5, 2001)

Alvin Elroy TERRELL had at least 2 children with **Daisy Colleen DABBS** (not married, Colleen was my mother)

Roy Kenneth TERRELL (May 30, 1955- living)

Bradford Lee TERRELL (Oct 3, 1957 - living)

Alvin Elroy TERRELL was married to **Mable Helen Florence DABBS** (no children)

Mable was mother to:

Daisy Colleen DABBS (May 10, 1937 - Apr 29, 1984)

Betty Jewel JONES (Apr 2, 1943 - Dec 6, 1963)

Netty Marlene JONES Pardue (Oct 21, 1946 - living)

Alvin Elroy TERRELL later married **Betty Jewel JONES**. They had 4 children:

Wesley Cole TERRELL (died after birth. Buried in Jeddo Cemetery)

William Colt TERRELL (living)

Judie Marie TERRELL (living)

Enoch Wayne TERRELL (living)

Side note: **Betty Jewel JONES Terrell** died in a car wreck while crossing the truss bridge, originally located on Lavaca County Road 300 crossing over Rocky Creek. The bridge was saved from demolition and relocated as a pedestrian bridge over Boggy Creek in the City of Shiner, TX. See <http://www.dot.state.tx.us/ENV/pdf/publicat/History.pdf> (bottom left).

She is also buried in Jeddo Cemetery. (She was my Aunt)

All of this is confirmed back to Alvin and Nora. I have no real proof that **Willie TERRELL** was **Alvin TERRELL**'s father.

I am trying to get in touch with a 1st. cousin, **Bobby KREJCI**. His mother was **Lorene TERRELL**. He may have more information. I also am told that this TERRELL line has a notable amount of Cherokee ancestry and that Bobby is actually on the rolls and has received education benefits. I have yet to confirm this for myself, however.

Also buried in Jeddo Cemetery is **Nancy Belle TERRELL**. We think she is a relative as well. Do you have any information on her?

Thanks a million! This has been, if not exactly a "break through"... at least a very informative exchange for me!

Bradford Lee (TERRELL) Lewis

Thank you for the additional information. Unless you can find additional information about **James A.**

TERRELL, it is unlikely that I will come across anything that will identify his origin. **Don C. Terrill**

Want ancestors of **Mildred/Millicent/Milly TERRELL** b. ca1723 Hanover Co. VA; d. ca1785 Warren Co. NC; and her spouse, **Phillip BURFORD** b. ca1723 at Gloucester/King William Co, VA; d. 02/11/1795/96 Warren Co. NC; married ca 1753 in Louisa Co. VA.

Milly is a mystery. We have much on the BURFORD family with many members using the TERRELL/TYRRELL name. Milly had the following children:

- A. **Mildred BURFORD** b. after 1753, d. after 1801; m1. **John TWITTY**, had 2 children; m2. **Philemon HAWKINS**; m3. **Ben HAWKINS**
- B. Rev. **Daniel BURFORD** b. after 1753, d. before May 1816; m1. **Frances HAWKINS**; m2. **Elizabeth HAWKINS**. He had 7 children.
- C. **Frances BURFORD** b. about 1754; m. **Wyatt HAWKINS**
- D. **Susannah BURFORD** b. about 1756, d. 1817 m. **Peter Wynn TWITTY**; 11 children.
- E. **Martha Glen BURFORD** b. about 1760 d. 1832; m1. **Philemon HILLIARD**, 10 children; m2. **Rufus C. RATHBONE**.
- F. Lt. **Phillip Terrell BURFORD** b. 1763, d. 1834; m. **Rebecca CLACK**; 12 children.
- G. **Mary Grissell BURFORD** b. 1765, d. 1823; m1. **Hendley SNEAD**, 2 children; m2. **Rawleigh HAMMOND**, 4 children.

Other connecting families include: **BALDWIN, BEAVER/BEAVERS, BULLCOK, SHOOK, BARTON, REID, BLAIR, CHAFFIN, CAMPBELL, ELLIS, TANKERSLEY, NOWLIN** & many more.

My line comes from Lt. **Phillip Terrell BURFORD** who was a Rev. War Vet. He enlisted in Warren Co. NC, served under Col. **Nicholas LONG & Wm. LINTON**. He was first with Quartermaster unit & purchased supplies. Later he was with a troop of horsemen. After the war, he returned to Warren Co. NC, then lived in Kershaw Dist. SC; Haywood Co. NC; Bedford Co. TN; and d. in Fayette Co. TN.

The BURFORDS are well documented in a 700+ page book by **Betty Arnold Loftiss**:

(bloftiss1@aol.com) *The Elder Daniel Burford*

In it are 18 BURFORDS with TERRELL as a middle name & 19 others of different surnames that have TERRELL/TYRRELL as part of their name.

I am hoping someone knows of this **Milly**. She is probably not the dau. of **Timothy & Mary MARTIN TERRELL** who had a dau., **Millie**. There is a **William & Frances WINGFIELD TERRELL** who had a son **Peter Burford TERRELL**. There must be a connection. #693 Ms. **Tyrrell J. Bond**; 2660 **Stout Rd. Cove**; **Memphis TN 38119**.

Dear Mr. Hamilton:

Thank you for sharing the information regarding the descendants of the slave, **Elizabeth/Liza**, who was owned by **Dacey TERRILL** and her husband, **Cato John CLARK**. We have some members who are looking for slave roots. If you have no objection, I will use the info that you provided in a future issue of TERRELL TRAILS. It may encourage, and/or help someone else.

First, you did not obtain the information about **Robert TERRILL & Judith TOWLES** that you submitted from our web site. We do not have any "Family Tree" type info on our site. Most of our information consists of the index to our quarterly newsletter **TERRELL TRAILS** and one volume in our LENDING LIBRARY. We are in the process of including the indexes to other volumes, but time, storms, and other limitations are making that a slow process.

Whoever created the site that you visited appears to have lifted the info from **TERRELL GENEALOGY** by Emma DICKEN. On page 43, she lists the same 12 children in the same order. There is no mention in her book of **Robert TERRILL, II** and **Judith TOWLES**, his wife, owning any slaves. Also there is no mention of his having more than one wife or of his having been married to **Ann MALLORY**.

Miss DICKEN has 3 paragraphs about the family as follows:

Para. 1: same parents for both **Robert & Judith**. "Judith was baptized 1735 Christ Church Parish in VA." "He was b. about 1725."

Para. 2: "They lived for a while in Culpeper County VA but in 1784, he obtained patents for land in Lincoln Co. KY. One tract was on BOONE's Road (Land Bk P, pp.17, 38). He moved there, & we believe died in that state."

Para 3: A warrant issued 27 Mar 1776 to **Robert TERRILL** for 68 pounds (British money) for wagonage in Capt. **Abram BUFORD**'s Company, of the Culpeper Battalion. The records of Culpeper also show that he furnished supplies to the army in 1781." This suggests that any remaining records pertaining to slaves of Robert TERRILL would be either in Culpeper County VA/Virginia Archives in Richmond, or in Lincoln Co. KY/state archives in Frankfort, KY.

The largest known collection of former slave records is those from the **FREEDMAN'S BUREAU**. This was a lending program backed by the U. S. government to lend money to former slaves for twenty years or so after the war. Promoters claim there are detailed applications on file listing former owners, family members, etc. among those records. I have not seen them myself. They are available from ANCES-TRY.COM on CD-ROM and probably to subscribers online. That is a long shot, but one or more of **Eli-za's** descendants may have applied for a loan. It is unlikely that **Liza** would have applied due to her advanced age – assuming that she was alive after the war.

As additional information, DICKEN, page 47, says that **Ann MALLORY** married Capt. **Robert TER-RILL** in 1798. He was nephew of the **Robert** who m. **Judith TOWLES**. Apparently whoever created the site that you visited confused the two Roberts.

I'm sorry that I cannot provide more information to help you in your search.

I look forward to serving you.

Sincerely, Dan Brinson

Bruney, Marie TERRELL 7 Nov 1921 8 Aug 1945

I am trying to find the parents of **Elijah H TER-RILL** born Aug 1826 in Ohio. His middle name is either **Haleston** or **Halston**. He married **Mary WATTS** (b abt. 1826 in Ohio) on July 30, 1848 in Knox County Ohio. They had 5 children that I know of **Charles Henry** b Aug 1851, **Ellen** b 1853, **Finis Evans** b Sept 9, 1858, **James Emmanuel** b 1859 and **Letha Mary** b Jan 1865. They moved to Fairmount, Pike, Illinois where some of their children might have been born. They are in the 1870 Census there. Then they moved to Mooresville, Livingston Co, Missouri between 1870 and 1880. In one Missouri Census, it states Elijah's father was born in Connecticut and his mother was born in Vermont Any help would be greatly appreciated. My e-mail address is jjcortney@comcast.net Thanks--Jan Courtney

I have checked my indexes to back issues of TER-RELL TRAILS. Only the first 15 years, Vol. I -- XV are indexed. There may be something in the past 5 years, but they are not indexed and it would be too time consuming to scan all of them.

I did not find any listing for **Elijah H. TERRILL**. I found numerous Elijahs with various spellings. Only the following might interest you.

page 665, LIST OF REVOLUTIONARY WAR PENSIONS included:

Knox Co. OH - 29 June 1837: **Elijah TERRILL** stated he was the son of **Nathan** and **Dorothy TER-RILL**, that he was 46 years old (b. ca1791) and was b. in Litchfield Co. CT where he resided with his parents until 1816 when they moved to Knox Co. OH where they resided until his father **Nathan** d. 01/24/1834; that he had one sister living who was b. March 1779 (she was not named in the extract).

A search for Nathan in the various spellings only found the following of interest:

p. 392 Another pension list contains: **TERRILL, Na-than** CT; **Dorothy** W0483

I checked our only volume in the LENDING LI-BRARY on New England Tirrells, but did not find anything on Nathan and Dorothy.

Based upon the info that you submitted, it is possible that he was the son of either Elijah above, or a broth-

er who came to OH at the same time. Either way, Nathan and Dorothy are good prospects for grandparents. Unfortunately, due to hazards of travel and other reasons, families tended to migrate together, ie, several families from the same area to the same new area at the same time. There may have been other TERRILLs who came to Knox Co. OH at the same time.

Being from CT makes him a candidate for one of two ancestors. Either Roger and Abigail UFFORD TERRILL who settled in New Milford, CT in the 1630s, or William THERRELL & Rebecca SIMPKINS who settled in Boston MA about the same time. Their descendants mixed and mingled across MA, CT, NY, and west. OH became a mixing pot with both New England lines and the VA lines that went to KY & then north. Lack of existing records makes proving anything almost impossible.

One of our members completed a comprehensive volume on the descendants of Roger and Abigail shortly before his death. His contact information was:

email: bruce Tyrrell@sprint.ca

I saw some postings to message boards indicating that his son was still selling the book, but I do not have current contact information for him.

The following member is a descendant of Roger & Abigail and at one time headed up a Society dedicated exclusively to their descendants. She had been inactive since 1997. I have not idea whether the addresses and phone numbers are valid today.

I am sending a copy of this message to our president, Mr. Don C. Terrill. He has done extensive research, mainly on the VA descendants, but he may have something from OH that will help you.

Regardless, as a TERRILL descendant, I cordially invite you to join us in search of the truth. Details are on our web site below.

My Great Grand mother was Grace **Elizabeth FELKER**. She was married to **Joseph Yancy TERRELL**.

They lived in Indiana somewhere for awhile then moved to Hopkinsville, KY. I had only met her one time in my life and I was 16 yrs. old at the time . Shortly after that she passed on. We lost touch with that side of the family after my father died. Joseph Yancy TERRELL's daughter **Loraine TERRELL** married my Grandfather Roy **McNary BECKNER** from Hopkinsville, KY . My grandmother Loraine died when she was just 26 years old and my father was only 9 at the time. They had another daughter by the name of **Helen** and a son who died very young by the name of **Bobby Joe**. Helen was 36 when she died of cancer the same thing that took my grandmother at the age of 26. I do know that my grandmother had siblings, but I have no way of contacting them there is only one sibling living. A brother, **Robert TERRELL** he lives in Princeton, KY in a home for aged men. I guess from what his nephew told me he doesn't remember anything or any one any more . I do know that my grand mother, Great Grandmother and Aunt are buried in Prospect Mission Cemetery church yard in Dalton, Hopkinsville Co., KY. **Connie Beckner-Koontz - conniere45@attbi.com**

Here's the line I am working on, maybe you can help?

These are my gggg grandparents:

Elijah SAWYER; b. 1708

d. 27 Jan 1792, Windham, CT

& **Hannah TERRELL**; b. 1715

d. 13 Nov 1801 Windham, CT

m. 07 March 1732/3, Windham, CT

The *Barbour Collection* of Vital Records shows the following TERRELLs for Windham:

TERRELL, TEREL:

Hannah, m. **Elijah SAWYER**, Mar. 7, 1732/33; 1; 94

Mary, m. **Daniel DIMUCK**, Nov. 23, 1732; 1; 140

Mehetable, d. **Lewis & Mehetable**, b. Mar. 11, 1736/7; 1; 160

Mehitable, w. **Lewis**, d. Dec. 3, 1744; 1; 160

Tryphenia, d. **Lewis & Mehetable**, b. Oct. 23, 1739; 1; 160

<http://www.geocities.com/Heartland/Fields/4791/barbourcollectionwindhamtaintorand.html>

And here are my ggg grandparents at Windham Centre Cemetery:

In memory of Mr. **Elijah SAWYER**
who died Jany ye 27th 1792
in ye 84th year of his age.

In memory of Mrs. **Hannah**
wife of Mr. **Elijah SAWYER**
who died Novr 13th 1801
in ye 86th year of her age.

<http://www.rootsweb.com/~ctcwindh/windhaminscriptions.html#S>"

Based on the dates, seems possible that **Mary, Hannah,** and **Lewis TERRELL**, listed in the Barbour Collection (above) may have been siblings.

I am very interested in finding out the parents and ancestry of **Hannah (TERRELL) Sawyer**.

Can you possibly direct me toward a publication that might help? Is there a reliable TERRELL family genealogy? I noticed a Jacobus article on TERRELL family in Connecticut, would it possibly be online? I didn't see a **Hannah TERRELL** b. 1715 in your index of TERRELL Trails, do you know if you have anything on her?

Thanks, I appreciate your time and any help you may be able to give, I am glad I found your web page and will be sending in my membership next week! Elizabeth ElizabethCord@aol.com

My husband's great grandmother was **Mary C. TERRELL**. We have her date of birth as 03/11/1838 Stokes co, N.C. and date of death was 04/28/1911, she was married to **William Burton SOUTHERN**, We haven't been able to find who her parents were we do have names of sisters and brothers.

The picture of **John TERRELL** and his wife was taken in martinsville, Ind. The Name Of The Portrait Studio Was Emmis Brothers

Mary C. TERRELL died in Mount Airy N.C. at that time the community was known as Laurel Springs North Carolina, She is buried at the Laurel Springs Primitive Baptist church Cemetery. This church and cemetery is owned by the Southern family. The other pictures don't have place listed on them. Can you guide us in the right direction to look for this information. Thank you. Sorry, nothing in my records. Don Terrill

I recently started digging around on TERRELL ancestry on behalf of my mother **Pat TERRELL** in New Orleans. She received a family tree from her cousin, Paul Newfield, that shows we may be descendants from Richmond I from Kent/New Hanover, VA. (I bet every query believes that's the case). The tree she has is from the BROWN/TERRELL line. Her grandfather was **John Lyle TERRELL** (1862-1908), married to **Louise Marie FORTIN** (1865-1918). His father was **Joseph Oscar TERRELL**, married to **Eugenie RAMOUIN**. Joseph's father was **John TERRELL** married to **Eugenie LAMBERMONT** in 1823. Supposedly John's father was **Richmond TERRELL** (1759-1815) married to **Sarah LISLES**. I think they had 3 children, **Rebecca** (married **Nathaniel CROPPER**, then **James JOHNS**), **John** (my line), and **Richmond**. I think Rebecca may be connected to the Rebecca plantation in Wallace, LA. **John** and **Joseph TERRELL**, my great and gg grandfathers, resided in Iberville Parish around what is now the St. Gabriel and Plaquimine area of LA. If I go back to the 1770s, the only assumption I come to is that **John TERRELL** (b:1707) to **William** and **Susanna Waters**, has several bastard children (from **Elizabeth HARRISON**) One sketchy tree on the web has that he had 2 sons, **Richmond** and **John**. I know this is a leap but the trail up turns cold.

I cannot locate any records on a Richmond TERRELL (or John or Joseph, for that matter) residing in Louisiana. Records from Iberville Parish seem to be scant.

My mother has a raised, but very curious, eyebrow over this and I am hoping to give her a Christmas surprise with some information. She is going to the TERRELL plot in St. Louis cemetery in New Orleans to jot down names and dates.

Ok, enough about me! Do you have any publications or info that may help? I am willing to purchase what I need (as you may see my low tech web gadget has limited capabilities. Not sure if I want to lay out for a real computer over this, as much as I love Mom).

I noticed a publication on TERRELL lineage by Emma (somebody)? that may prove fruitful. Plus, a book I can't find called "They Came from Iberville".

Sorry this is so long, but I am a newbie at this and, of course, am looking for the lazy way to connect the missing dots.

Thank you in advance for any assistance or guidance in direction. I am more than willing to join your group under Moms TERRELL name.

Happy Holidays,

Erin EVANS, daughter of Pat TERRELL Evans

Yes, **John Lyle TERRELL** (whom I show as **John Lyles TERRELL**) is descended from **Richmond TERRELL** (b. 1624) the immigrant. If Erin will furnish a postal address, I will send a printout of the ancestry which I have compiled from many sources. Don C. Terrill

I have been visiting the Terrell sites on the web and I am really grateful for all the hard work you people are doing. I live in Tifton, GA. I am a descendant of the Terrells of DeKalb Co. I have traced my line back to the Rauf Castle in England. I was so trilled to find this on the web. I have some ALLEN Cousins living there in Cairo also. Don't get to see them much though.

I wanted to ask you if you, or any of the members have any ideas on how I might go further back on the ALLEN side of my family. My Grandfather was **Jackson ALLEN** of Carroll Co. Ga. He married **Arrena TERRELL** in Carroll Co. in 1880. That's all I can find out at this time. It has been a hard line to trace for some reason. Thanks, and keep up the good work!

First Generation

William Henry TERRELL; b. 1880 d. 1912; m. **Emily Jane LEMMON** 1901; d/o **Robert & Elizabeth LEMMON** b. May 16 1885 DeKalb, Texas; d. Jan 21 1962 Phoenix, Arizona

It is known that William has siblings- last known to be in Texarkana.

Emily (Emma) became very embittered toward the family of William Henry Terrell her first husband. The story is that when William became ill, Emma

sent word to the family to come and help her. The family, fearing the illness, refused to come and help and Emma had the entire care of her fatally ill husband and two small children. After Williams` death Emma disowned his family even though they tried to extend themselves to her. She refused to try and see their fear and did not acknowledge their sorrow. Emma refused to mention the Terrell name or talk of them at all for the rest of her life.
