THIS ISSUE SMALL

This issue is small due to the 42 page updated index. For those of you who are new, this accumulative index is larger than the entire Vol. I published in 1985.

TERRELL SOCIETY ADOPTS ONE ADDRESS

We had been publishing multiple addresses in TRAILS due to the probability of the person whose address we used moving or otherwise being no longer available. Six months after change of address, mail to the old address would be returned to sender. However, some of our members found that confusing. Therefore, beginning now, address all official correspondence to Mrs. Pat Terrell Walker, 7701 Park Vista Circle, Charlotte, NC 28226. This includes dues, lending library re-

quests, queries, changes, requests for membership, etc. The Douglasville, GA address will have to be used on the wrapper as long as we mail TRAILS from here. However, that address will be phased out on all other forms as the current supply becomes exhausted. Mr. L. F. LeSturgeon will continue to assist Pat with both the Lending Library and the correspondence duties.

HOW TO USE TRAILS

This brief article is in response to the following plea from a member, "I am rather new to genealogy and do not know how to use the material in TERRELL TRAILS, but I will try for another year."

1. TERRELL TRAILS, like most genealogical publications is a place to get free advertising for information about your lost ancestors by placing up to two QUERIES per year. Hopefully, another reader will have the information you seek and will write to you. A convient query form is printed inside your TRAILS wrapper each issue.

2. Read each issue from cover to cover. Pay close attention to QUERIES placed by others. They may be seeking the same ancestor. If so, pooling your information may provide the clue each of you needs to continue. Carefully read each member's genealogical chart that is published. Your line may appear on one.

3. Read each chart, biographical summary, family group sheet, or other item; looking closely for YOUR ANCESTORS.

How to Use TRAILS cont'd:

4. When the new accumulative index is published, search alphabetically for your ancestors by surname and given names. Check each of the spelling variations. You may find you ancestor recorded under a different spelling. Most importantly—check for the names of related families known to have married into your direct line. Due to our concentration on Terrell variations, this may take less time and prove just as successful. You are in luck on this one! Our newly revised 42 page accumulative index accompanies this issue. The only names not included in the index are those of this issue.

5. When you find an item that may include your ancestor(s), follow up by: 1) writing to the member who submitted the info; 2) obtaining the original record such as census, will, newspaper item, or tax list; and 3) if all else fails, send in another query containing your newfound information. That may spark a chain reaction and lead to the information you need.

I believe you will find most of us are in the TERRELL SOCIETY because of a sincere desire to help others as well as to complete our own personal lineage chart. Last, but not least—when you write to someone requesting information: include a self-addressed, stamped return envelope. You will find that it increases your responses. It also instills a feeling of good-will into the person from whom you requested the info.

WAGONS WEST

Revolutionary War to WWI
TERRELL TURNCOATS FEW IN THE SOUTH

Every political question has at least two sides. In many cases, loyalties are divided

by more than family, geographic, and idealistic bonds.

The Civil War, or the War Between the States was no exception. Just as there were "copperheads" in the north who sympathized with southern planters; there were southern farmers who did not hold with slavery and the other issues exploited to bring on the war. Between 1871 and 1880, the Southern Claims Commission accepted claims from southern farmers who sympathized with the north, but had livestock confiscated, crops burned, or suffered other damages as result of the war. Gary B. Mills has compiled an index from microfilm records of over 15,000 such claims. His primary sources were: (1) National Archives Microfilm Publication 87, Roll 13, Geographical List of Claimants; and (2) Annual Report of the Commissioner of Claims, House Miscellaneous Documents, 42d Congress, 2nd Session, and 46th Congress 2nd Session (Wash DC 1871-1880)

Microfilm or photocopies of any desired claim(s) can be ordered for a nominal fee from the National Archives. To expedite the order, he suggests addressing it to: Legislative, Judicial, and Fiscal Branch of the Archives, citing Record Group 56. Be sure to include name of claimant as it appears in this index; the state and county given for the claimant; and the specific claim number. #3,619 Terrell, Rufus K; Wake County, NC
#13,045 Terrell, Richmond R.; Lancaster County SC
#5,562 Terrill, A. T.; Henderson County TN

No Terrell (or variant) claims were listed for the states of: Alabama; Arkansas, Florida, Louisiana; Mississippi, Texas, or West Virginia.
