Several options are available

- Make last year's index permanent and start over with a second index;
- Make this year's index permanent (5 years publication) and start over with a second index;
- Continue to maintain an accumulative index, but limit distribution to those who are willing to pay extra for a copy; or
- Raise dues sufficiently to continue publishing and distributing an accumulative index annually.

NEW INDEX BUDGET KILLER

It has been obvious for over a year that some changes are going to have to be made in our practice of updating our accumulative index annually. Until this year, the major problem had been the time involved. Now another fly has appeared in the ointment—COST.

The updated index which accompanied our last issue contained 42 pages—more than our entire Vol. I which we published in 1985. The cost of publishing the Spring issue and accumulative index for last year used **HALF OF OUR CURRENT FINANCES!** We will probably acquire a few new members throughout the year, but most of you who will renew have already done so.

If we add as many pages and names this year as we did last year, next year's index will be over 60 pages.

As editor, I am leaning toward the second option, to make this year's index permanent. If we do that, we may be able to publish and sell to the general public and any members who desire it a **HARD BOUND COPY** of Vols I-V with index.

We have genealogical information on hundreds, not thousands, of persons with surnames other than the **TERRELL** variants in our publication. There are people who are looking for that information, and some are willing to purchase a book to find it.

This could give us an additional source of revenue to use toward our objectives of placing the lending library across the country and toward building our computer data base to make our information more readily available.

TERRELL SOCIETY PLANS NATIONWIDE DISTRIBUTION OF TERRELL LENDING LIBRARY

Plans are under way to distribute at least 10 copies of
the TERRELL LENDING LIBRARY to selected
library locations nationwide.

To start the ball rolling, Mr. Bill TERRELL and Mr.
L. F. LeSTOURGEON have agreed to personally
provide the funds necessary to place a copy of the
collection in the Charlotte, NC library.

Tentative plans call for placing the original TER-
RELL Collection, USA, which includes the Lending
Library in the Georgia State Archives in Atlanta,
GA..

We hope you will have a part in this effort.

As far as we know, no other surname organization in
the USA has attempted such a project. As we ac-
complish this goal, the TERRELL Society of
America, Inc. will reap the benefits of free national
publicity that would cost hundreds of thousands, if
not millions of dollars to equal in paid advertising.
The cost of copying and placing an entire set in a
library or archive will be approximately \$300.00.

Some of us can't place an entire library at \$300.00;
half at \$150.00; 1/3rd at \$100.00; or even 1/4th at
\$75.00. However, we can each have a smaller part
sometime this year.

For those who like to play with figures, 10 copies of
the library at \$300.00 each = \$3,000. Divided by
approximately 200 active members, that averages out
to only \$15.00 each -less than most of us spend for
one dinner for two. Is one dinner for two too great a
sacrifice to make to help place 10 copies of our
LENDING LIBRARY in strategic libraries from
coast to coast?

This item is an advance notice to whet your appetite
and start you to thinking about the part you want to
have in this effort.

We plan to have a formal contribution drive for this
project in the fall.

In the interim, if you can contribute to this program
before the formal drive, please send your contribu-
tion to Mrs. Pat TERRELL Walker at the address in
our masthead.

Make your check to TERRELL SOCIETY OF
AMERICA, INC and mark it for LENDING
LIBRARY DISTRIBUTION.

WELLINGTON TERREL

Submitted by #298 Mrs. M. Maxine Connell

This gentleman was born in Ozark township, Lawrence County, on the 23d day of September, 1846. He is the son of Andrew H. Terrel and Talitha LILES Terrel, his wife. On the parental side, Mr. TERREL is of Ohio ancestry. His grandfather, John TERREL was a native of that state, and lived there until 1832, when he moved to Missouri. After a few years in this state, he moved further west and settled in Kansas where he passed the remainder of his life. He died there during the eighties.

His son, Andrew H., father of the subject of this sketch, was also born in Ohio, came to Lawrence county at an early date, and was one of the pioneers of the county. When the Civil war broke out, Andrew H. TERREL enlisted in the Union army and did a man's part for the side which he believed to be right. After the war, he returned to his Lawrence county farm, and followed his vocation as a farmer during life. He was successful in that line and at the time of his death in 1894, he was the owner of 300 acres of good land. He died at the age of seventy-four years. His wife survived him and died at the age of eighty-eight. This couple had were the parents of four children: Wellington, of whom we write; Margaret; George; and Wetherston. The parents were members of the Baptist church.

Mr. W. TERREL grew up on his father's farm doing his part of the farm work during the summers and attending the district school during the winters. Mr.

TERREL was married in 1869 to Harriet HOLINGSWORTH, a daughter of James HOLINGSWORTH. By this marriage, he was the father of six children: Elsworth; Ellwood; Alma; Annie; Charles; and Katie.

Ellsworth married Ada WEST and was the parent of three children: Aword; Wilma; and Austin. Elsworth died September 5, 1913. [Source: HISTORY OF LAWRENCE COUNTY, MISSOURI, Vol III-19, page 289. Blance of the sketch was not submitted.]

LEWIS/TERRELL CONNECTION

Submitted by #261 Mrs. Aletha M. Fields

There was another John LEWIS who emigrated from England to Virginia. He lived at St. Paul's Parish, New Kent County, the part which became Hanover County in 1720. John died there in 1736. His son

David LEWIS married **Ann TERRILL**. Ann, born 1688, was the daughter of **William** and **Susannah Waters TERRILL**. William was born in England in 1636, and emigrated to New Kent County, Virginia. His father, also named **William TERRILL**, (wife **Martha**) emigrated from England to New Kent County a few years after his son came. The elder **William TERRILL**'S father was **Robert TERRILL** of England.

David LEWIS, son of above John, was born in 1685. He and Ann had a son **William Terrill LEWIS**, born 1718 in New Kent County, Virginia. David and Ann LEWIS moved to Albemarle County where son, **William Terrill LEWIS** married **Sallie MARTIN** about 1739. They moved to Surrey County, North Carolina where David entered service in the Revolutionary War and where Ann died.

Susanna LEWIS, daughter of **William Terrill** and **Sallie MARTIN LEWIS** was born in 1742 in Albemarle County, Virginia. She married **Thomas BERGE**, born around 1730, who was a son of **John BERGE**. John was an early trader among the Cherokee Indians of North Carolina and Southwest Virginia. Some believed these **BENGES** had Indian blood, and suggested relationship to chief **John BERGE**, mentioned in the Indian Lore Chapter of this book; however, **Homer LEDFORD**, who has done much research on the family, doubts that this is true.

Thomas and **Susannah LEWIS BERGE** had the following children: **John BERGE**, a Revolutionary Soldier from Wilkes County, North Carolina; **David BERGE**, (1760-1854), a RS from same county; **Joel BERGE**; **Rice BERGE**; and there may have been a **Joseph BERGE**.

Joel and **Rice** emigrated to Madison County, KY along with some of the **TERRILL** families. Many of their relatives [descendents] still live in Clay and Leslie Counties today.

Since these **LEWIS** families all came from the same general area of VA and NC as the other **Leslie County LEWISES**, they may be related. Surrey County, NC, where **William T. LEWIS**, the **BENGES** and **TERRILLS** lived, was one of the parent counties of Wilkes, and in 1799 Ashe County was cut off from Wilkes.

SUCCESS STORY!

We frequently get letters from members telling of their search efforts. Occasionally, we get one that keeps us going. This is just one of those.

Feb 1, 1989

To the Staff of Terrell Society of America,

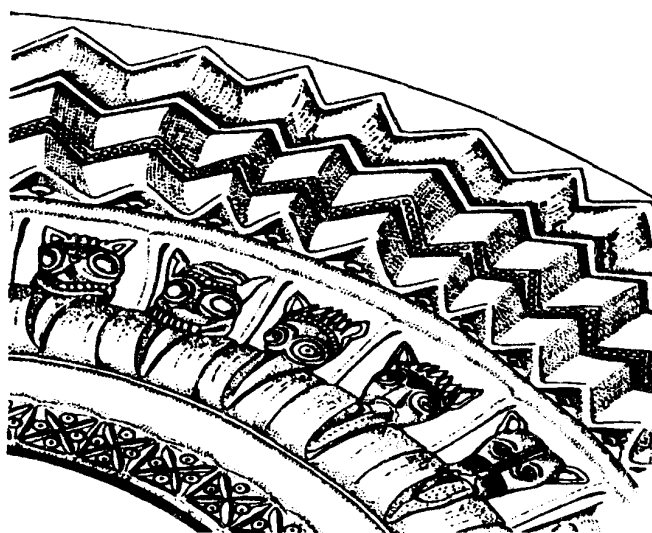

I have been meaning to write you for some time and tell you what a wonderful job you are doing.

I have been in touch with other people; one added some information to what I had and I was able to contact a lady and add 2 generations to her records. This all gives me a lot of satisfaction and it was all possible because of the dedication you people have. You are doing a great service for all the Terrell's.

Thanks again & keep up the good work.

Sincerely,

Alice Terrell Harden

Early History of TERRELL County, TEXAS

Terrell County was created by an act of the State Legislature of Texas, April 8, 1905 and organized July 27 of the same year.

It was named for **A. W. TERRELL**, made famous by the Terrell Election Laws.

He was active during the Civil War and did much for the State of Texas.

He was minister of the United States to Turkey under President Cleveland

All the land between the Pecos River and the Rio Grande was called Santa Fe County after the boundary dispute with Mexico in 1848, giving this territory to the state of Texas.

Later the county was considered too large and divided into four counties, with the southeastern part being Presidio County. In 1871 Pecos County was created from Presidio, and Terrell County was a part of that county until its own creation..

The first white person to see this territory was Cabeza de Vaca, a Spaniard who came through this part of Texas in 1538.

Juan Dominguez Mendonza from Mexico City led an expedition which passed through Fort Stockton on January 12, 1684. His path was definitely traced from there to Inde-

pendenceCreek by his complete descriptions of the country.
The first inhabitants were native Indians.Caves and scattered arrow heads, as well as many mounds, show that they once lived here.
In the eastern part of lthe county on the **Roy Barksdale** ranch is an Indian painting on some flat rocks. A map of the land west of the Pecos is cut in the rocks. The pictures tell the story of an Indian chief who took his son hunting. There are several scenes of the hunt and the deer which they finally killed.
In the north central part of the county on the **R. N. Allen** ranch, near King Springs, is a cave which shows signs of Indians living there. The walls and a rock in the center have deep marks cut by the Indians sharpening their arrows. Many arrowheads and one tomahawk have been found there.
Below the cave are two paintings in red and black. One is a buffalo and the other is an Indian squaw.
Myers Spring, about fifteen minutes northeast of Dryden, has paintings on the walls that show the bear (symbol of the Comanche) and the lion (symbol of the Apache).They also attempt to tell of the attempt to bring Christianity.
There is a church and a priest with garb, confused with the worship of the seasons shown by various symbols portraying the sun surrounded by long and short rays.

In 1880, a troop of Seminole scouts who were part Negro, lived at Myers Spring in about 15 one room houses made of dirt and ocotillo roofs.

They were led by Lt. John L. Bullis who led several raids on the Kikapoo and Lipan Indians who had been raiding the whites.

The last of these raids was in August 1882.

TERRELL/DAWSON CONNECTION
William A. DAWSON, a pioneer in 1877, has participated in the development and progress of Skagit county, beginning his individual operations in the days that preceded the removal of the famous Skagit river log jam, over which as a young man, he made his first crossing of the Skagit.

was a cousin of his mother.
The elder DAWSON was a farmer in his early days, but espoused the cause of the Confederacy during the Civil War.
He served through the conflict with the Third Georgia Volunteers, closing his career under LEE at Appomattox.

Mr. Dawson was born in Gordon county, Georgia, June 2, 1859, the son of Ratliffe Boone DAWSON, named after the famous old pioneer of Kentucky, Daniel BOONE, who

He returned to his Georgia farm, but in 1877 came to Washington. He remained for 8 years, ultimately returning to Georgia where he still resides.

Mrs Mary TERRELL Dawson, mother of our subject is one of the old Talt TERRELL family, well known in Georgia; and is still living, the mother of nine children, of whom William A. is the oldest.

William live at home until he was twenty-one years of age, coming to Washington with his parents, but declining to return with them.

They had bought two hundred and twenty acres of land here and after they sold out, he determined to remain.

He bought an acre of ground a half mile west of Bow, on which he is still living and from which, as a center, he conducts his logging operations.

Soon after his parents returned to Georgia, Mr. Dawson commenced logging and during two later years he conducted logging operations in a camp of his own near Edison. He has followed logging every year since, his yearly output sometimes reaching as high as three million feet.

In 1884, Mr. Dawson married Miss Jennie WALKER, a native of Canada and the daughter of Andrew P. WALKER, who was of Scotch birth, and all of whose brothers became officers in the British Army. Mr. Walker was but a lad when his parents removed to Canada.

He grew up there, but spent some time in Minnesota before coming to Washington where he died in 1884.

Mrs. Eliza J. BINGHAM Walker, mother of Mrs. Dawson, is a native of Canada, and at present is residing in Anacortes. Since the demise of her husband, she has married B. C. Raneous of that city.

Mr. & Mrs. Dawson have five children: **D. Ray**; **Rexford P.**; **Maxwell B.**; **Ruby E.**; and **Ralph F.**

Mr. Dawson is a member of the Modern Woodmen of America. He and Mrs. Dawson also belong to the Pioneer Association. In politics, he is a Democrat. He is a man respected in his neighborhood and recognized by his business associates as one who has business ability and business integrity.

During a residence in Skagit County of more than a quarter of a century he has applied his energies almost exclusively to the development of the one industry in which he is now engaged.

He has demonstrated his ability not only to master the details of his business, but also to manage it that it will yield its largest returns. His name must ever be linked with those of the pioneers of this section who found it a primeval forest and have converted it into a habitable region with its homes, farms, towns, cities, and innumerable industries. #####
